

# Babies, Kids 'n Canines Seminar

Saturday April 1, 2017 10:00am to 12:00pm

\$25.00 per family

Are you preparing for a new addition to your household? Is someone you know expecting? Did a friend recently have a baby? Do you know someone who needs guidance in this department? We have the answers! Family Dog Training Center is hosting a seminar for all those expectant parents (and their adult family members, too!).

The seminar leader, Jayne Bosch, is a current Family Dog instructor with a toddler and another baby due this Spring. She will share her tips for helping the dogs prepare for the new arrival so you can start training behaviors before the baby comes. She'll offer suggestions for easing the transition during those first few stressful weeks, along with specific techniques for coping with common situations that arise. And she'll share her successes (and struggles) as baby becomes a toddler, and beyond.

There will be plenty of time for your questions and group discussions so everyone leaves with an action plan to make this new life experience a positive one for all involved.

Children may attend, but please be aware that this is an adult-oriented seminar and may be too boring for young children. No dogs, please. The seminar will be held at Family Dog Training Center, 1515 Central Ave. S., Kent, WA 98032.
